Vol. V No. 9

September 1961

AUGUST UNIFORM PRICE \$4.11

Dairy farmers who delivered Grade "A" milk to handlers subject to the Fort Wayne milk order during August 1961, will receive a minimum uniform price of \$4.11 per hundredweight for milk testing 3.5%. A Butterfat differential of 7.4 cents for each one-tenth of one percent that individual tests vary above or below the 3.5% standard will be used. This minimum price is subject to a 4 cent per hundredweight marketing service deduction and authorized hauling charges. The computation of the minimum blend price is shown on page 5 and the class prices on page 4.

The \$4.11 price for August 1961, is 9 cents above the July 1961 price, and 9 cents below the August 1960 price.

PRODUCTION AND UTILIZATION

Approved producers shipped 14,469,507 pounds of milk to the Fort Wayne market during August 1961, of which 11,087,479 pounds or 76.6% was utilized in Class I. Production was down 6.3% from July 1961. Class I utilization of producer milk was up 1.9% from July 1961.

There were 927 producers on the market for August 1961. Average production per farm per day was 504 pounds compared with 547 pounds for July.

MILK DIVERSION PROVISIONS CHANGED UNDER THE FORT WAYNE ORDER

The U. S. Department of Agriculture has suspended from the Fort Wayne, Indiana, Federal milk marketing order for September-December, 1961, the provision which has limited the diversion of producer milk by a handler.

There will now be no limitation on such milk diversions to unregulated plants for the rest of this year. Effect of the suspension is to lift the requirement that milk be delivered to a pool plant at least half the days of the month to be priced under the order.

USDA said the suspension will facilitate orderly disposal of milk in excess of fluid market needs during the present period when the market is changing over from can deliveries to bulk tank deliveries.

This suspension action was requested by the Wayne Cooperative Milk Producers, Inc., and the Allen Dairy Products, Inc., the two cooperative associations in the market. Virtually all handlers in the area also joined in the request.

CLASS I PRICE

The September price for Class I milk is \$4.40 or 2 cents above the July and August Class I.
